

MITSUBISHI GAS CHEMICAL COMPANY, INC. Receives Intel's Preferred Quality Supplier Award

 **MITSUBISHI GAS CHEMICAL COMPANY, INC.**

March 11, 2016

5-2, Marunouchi 2-chome, Chiyoda-ku, Tokyo 100-8324, Japan, March 10, 2016 – MITSUBISHI GAS CHEMICAL COMPANY, INC. (MGC) has been recognized as one of 26 companies receiving Intel Corporation's Preferred Quality Supplier (PQS) award for their performance in 2015. MGC has demonstrated industry-leading commitment across all critical focus areas on which they are measured: quality, cost, availability, technology, customer service, labor and ethics systems and environmental sustainability. MGC is recognized for their significant contributions providing Intel with chemicals for semiconductor device manufacturing, deemed essential to Intel's success.

"We are very happy to receive the award in 2015. Without any major quality/supply issue, and superior inventory management, we always keep delivering quality products that meet Intel's requirements. Our account team members in global locations appreciate Intel for their continuous support driving us to be better and better, we will continue performing to our best capabilities to meet Intel's expectations in the future, " said MGC.

"Intel is pleased to honor MGC with the Preferred Quality Supplier (PQS) award for the third consecutive year," said Tim Hendry, vice president and director of fab materials in the Technology and Manufacturing Group at Intel. "This award recognizes MGC's emphasis on supply chain excellence in the areas of quality and availability. Moreover, they continue to demonstrate their valuable strategic partnership in supporting Intel's technological roadmap by providing products of superior quality and excellent account support.

The PQS award is part of Intel's Supplier Continuous Quality Improvement (SCQI) program that encourages suppliers to strive for excellence and continuous improvement. To qualify for PQS status, suppliers must score 80 percent on a report card that

assesses performance and ability to meet cost, quality, availability, technology, environmental, social and governance goals. Suppliers must also achieve 80 percent or greater on a challenging improvement plan and demonstrate solid quality and business systems. Additional information about the SCQI program is available at <http://intel.com/go/quality>.

A celebration to honor PQS award winners was held in Santa Clara, California themed “Delivering the Future Together”, which illustrates the contributions this supplier has made in 2015. In addition, there was an announcement on Intel’s website at <https://newsroom.intel.com/>.

About MITSUBISHI GAS CHEMICAL COMPANY, INC.

MGC is the world’s largest supplier of super pure hydrogen peroxide and provides creative solutions through a variety of chemicals for semiconductor device manufacturing in the highest quality and reliability. MGC has production facilities in multiple locations, including the US, Japan, Korea, Singapore and Taiwan for global supply chain support.
