

Announcement of participating in CHINA COAT 2016

 **MITSUBISHI GAS CHEMICAL COMPANY, INC.**

November 17, 2016

Mitsubishi Gas Chemical Company, Inc. (MGC; Head Office: Chiyoda-ku, Tokyo; President: Toshikiyo Kurai) is pleased to announce that we will participate in China Coat 2016.

MGC's MXDA & 1,3-BAC have been widely used worldwide as raw material curing agents for epoxy resins. They show excellent properties such as chemical resistance, fast curing at low temperatures, clarity and UV resistance. Among several innovative products, MGC will also showcase a new set of ready to use waterborne epoxy hardeners in the GASKAMINE series. These new ready to use epoxy hardeners show excellent chemical resistance, fast curing times with zero VOCs.

Additionally, MGC will introduce Neopulim® a transparent polyimide varnish with outstanding optical properties and Tg for optical components.

Please come by our booth to hear about our various products and suggested formulations.

■Products to be featured:

- MXDA (<http://www.mgc.co.jp/eng/products/lm/07.html>)
- 1,3-BAC (<http://www.mgc.co.jp/eng/products/abc/07.html>)
