

Announcement of participating in Taiwan Printed Circuit Board Association Show

～Exhibition of New Products for Printed circuit board manufacturer～

 **MITSUBISHI GAS CHEMICAL COMPANY, INC.**

October 14, 2015

Mitsubishi Gas Chemical Company, Inc. (MGC; Head Office: Chiyoda-ku, Tokyo; President: Toshikiyo Kurai) is pleased to announce that we are going to participate in Taiwan Printed Circuit Board Association Show.

Chemical Polishing Agents are used for polishing and/or etching small and complicated metal parts such as printed circuit boards. MGC would like to promote to provide our new products to the front-line printed circuit board manufacturers of Taiwan.

If you'd like to know the further information about our products, please visit the MGC booth.

■Mainly displayed Products

- Clean Etch EMR-5000 (Adhesion Promotor between Dry Film Resist and e-less Cu)
- Clean Etch CPE-851 (Flash Etchant for Semi Additive Process)
- Clean Etch CPEE-100 (Flat Etchant for Embedded Process)
- Clean Etch R-100S/R-101 (Dry Film Resist Stripper for Semi Additive Process)
