Commercial Operations Commence at Methanol / Dimethyl Ether Plant in Trinidad and Tobago

January, 19, 2021

Mitsubishi Gas Chemical Co.,Inc.

Mitsubishi Corporation

Mitsubishi Heavy Industries Engineering, Ltd.

Mitsubishi Gas Chemical Company (MGC), Mitsubishi Corporation (MC) and Mitsubishi Heavy Industries Engineering (MHIENG) have teamed up with the National Gas Company of Trinidad and Tobago (NGC) and Massy Holdings (Massy), a joint venture in the Republic of Trinidad and Tobago, Caribbean Gas Chemical Limited (CGCL), to launch commercial operations of a methanol and dimethyl ether (DME) plant.

CGCL was established in March 2013, and it completed construction. Fueled primarily by natural gas sourced from Trinidad and Tobago, the plant has an annual production capacity of one million tons of methanol and 20,000 tons of DME. It began operating commercially in December 18, 2020.

Methanol is a basic chemical that is used as a raw material in the production of many downstream products. Its applications include adhesives, agricultural chemicals, paints, plastics and synthetic textiles. In recent years, it has been garnering more attention as an alternative to heavy fuel oil in the shipping industry and as an otherwise environmentally-friendly source of energy. Furthermore, because it can be produced from CO₂ and as a promising hydrogen carrier, it could play a part in realizing sustainable, low-carbon societies. DME is also raising interest as a clean, next-generation energy source. In addition to its use in aerosol products and other daily goods, it can serve as an alternative to liquefied petroleum gas and diesel fuel for automobiles and power generation.

Currently, the global demand for methanol is approximately 81 million tons per year, and that is expected to increase steadily in step with GDP growth. Through this business, MGC, MC and MHIENG are aiming to help meet that demand and provide a boost to economic growth in the Caribbean.

CGCL's Plant

(Project Summary)

Company Name	Caribbean Gas Chemical Limited (established March 2013)
Location	La Brea, Union Industrial Estate
Production	1 million tons/year methanol
	20,000 tons/year DME
Total Investment	Approx. 1 billion USD
Capital	Approx. 300 million USD
Ownership Ratio	MGC = 26.25%
	MC = 26.25%
	MHIENG = 17.5%
	NGC = 20%
	Massy = 10%

[Additional Information]

1. Mitsubishi Gas Chemical Company, Inc.

Headquarters	2-5-2 Marunouchi, Chiyoda-ward, Tokyo
Operations	Mitsubishi Gas Chemical Company manufactures and sells a wide variety
	of products from basic chemical products to fine chemicals and
	functional raw materials and has established a positive record in the
	development of gas fields.
Representative	Representative Director and President
	Masashi Fujii
Date	April 21, 1951
Established	

2. Mitsubishi Corporation

Headquarters	2-3-1 Marunouchi, Chiyoda-ward, Tokyo
Operations	With the addition of corporate divisions to the 10 groups of Natural Gas,
	General Materials, Petrochemical, Mineral resources, Industrial
	Infrastructure, Motor Vehicles Mobility, Food Industry, Consumer
	Industry, Electric Power Solutions and Complex Urban Development, roll
	out Structures is developing diversified businesses with a broad range of
	industries as its business areas.
Representative	President and Representative Director Takehiko Kakiuchi
Date of	April 1, 1950
Establishment	

3. Mitsubishi Heavy Industries Engineering, Ltd.

· · · · · · · · · · · · · · · · · · ·	<u> </u>
Headquarters	3-1 Minatomirai 3-Chome, Nishi-ku, Yokohama, Kanagawa 220-8401
	Japan
Operations	Engineering, manufacture, procurement, construction, marketing and
	after-sale servicing of chemical plants, transportation systems and
	products, environmental products, etc., including ancillary businesses
Representative	President and CEO
	Kenji Terasawa
Date of	January 2018
Establishment	

4. NGC

Headquarters	Orinoco Drive, Point Lisas Industrial Estate, Couva,
	Republic of Trinidad and Tobago, West Indies
Operations	Natural gas and LNG sales, pipeline management operations.

Representative	Chairman
	Conrad Enill
Year of	1975
Establishment	

5. Massy

Headquarters	63 Park Street, Port of Spain, Trinidad and Tobago, West Indies
Operations	Wide range of businesses covering the entire Caribbean region, including
	wholesales, real estate, automobile dealerships and maintenance
	centers, industrial-use gas production and supply, and hotel
	management operations.
Representative	Chairman
	Robert Bermudez
Year of	1932
Establishment
