To: Whom it may concern:

Biocidal Product Regulation (EU) 528/2012

Dear Sir / Madam:

MGC's Oxygen Absorbers are not intended to be used for the following purposes in EU:

- Preservation of food against insects, i.e. egg, larvae, pupae and adult
- Preservation of cultural assets i.e. books, tapestries, animal skins, textiles and fabrics against insects
- Preservation of cultural assets against mildew and mold growth

Please note that using MGC's Oxygen Absorber products in the above mentioned uses would not be in compliance with the Biocidal Products Regulation (EU) No 528/2012.

If you have any question, please contact us without hesitation.

Sincerely yours,

Takao Hosokawa

General Manager / Oxygen Absorbers Division
